Why Intern with Mind Rewire?

- Supervision and mentorship from experienced psychologists
- Ethical, structured approach to practical skill-building in mental health
- Access to curated reading lists and practice resources for entrance exams
- Participation in group discussions, case presentations, and mini-lectures
- A letter of internship experience for further job and academic opportunities

If you want a training experience that is warm, structured, and skill-forward - this program is designed for you.

Learning Outcomes

Practice-ready templates

Case history formats, note-taking structure, and report-writing checklists to help you build consistency.

Assessment confidence

Step-by-step support for administering and scoring tools (as applicable to your level), with supervised feedback.

Counselling micro-skills

Rapport building, reflective listening, goal-setting, psychoeducation, and session structuring.

Ethics and boundaries

Confidentiality, consent, documentation, and safe professional conduct - practiced throughout the program.

Note: This is a learning-focused internship. Scope of observation/participation depends on client consent and program level.
